## Peer to Peer Exchange

[www.hodlhodl.com](http://www.hodlhodl.com) - **HodlHodl** is a peer to peer non-custodial Bitcoin exchange meaning they do not hold user's funds. They provide escrow service by creating a multi-signature wallet between the users. However, users can also connect and trade in their own terms such as meeting in person use cash and so on. This is very similar to LocalBitcoins, yet they do not force you to fill KYC details, therefore giving you the option to stay anonymous.

<https://bisq.network/> - **Bisq** is the world's first fully decentralized peer to peer fiat exchange. This platform is quite literally one of the most advanced in the industry, as it lets anyone trade Bitcoin with national currencies and without even needing to register an account.
